QUARTERLY/NEWSLETTER EXTRACTIONS

Illinois Territory

In 1778-1782 Illinois was known as Illinois County of the Territory of Virginia. There were two territorial censuses taken in Illinois. These were Indiana Territory in 1810 and the Illinois Territory in 1818. These can be found in the Illinois State Archives, Archive Building, Spring and Edwards, Springfield, IL 62756. *Shawnee Newsletter, Saltine Co., June 1999.*

Cook County Archives

The purpose of the Cook County Archives is to collect, preserve and make available to researchers the non-current records of the Cook County Court System. Naturalization records are available from 1871-1929. To contact the Cook County Archives, phone: 312/603-6601 or 312/603-6629 or write: Clerk of the Circuit Court of Cook County, Archives Dept., Room 1113, Richard J. Daley Center, Chicago, IL 60602. *Macoupin County Searcher, January, 2000.*

National Archives Revamping

The following changes are being considered by the National Archives Records Administration:

1. The NATF Form 80 would be discontinued and replaced by two new forms: Form 85 to request both Bounty Land Warrant Application files and Pension files; Form 86 to request Military Service Records.
2. Instead of sending a selection of pages, the complete file would be sent.
3. The fees for all three types of files would be raised as follows:

Military Service Records	\$17.00
Bounty Land Warrants	\$17.25
Pension Files	\$40.00

This was originally to go into effect in September of this year but final decision has not been made as yet. *The Genealogy Society of Southern Illinois Newsletter, June 2000.*

Just A Hundred Years Ago

In 1900, the average life expectancy in the United States was forty-seven.

In 1900, only fourteen percent of the homes in the US had a bathtub.

In 1900, only eight percent of the homes in the US had a telephone, and a three minute call from Denver to New York City cost \$11.

In 1900, there were only eight thousand cars in the US and only 144 miles of paved roads. The maximum speed limit in most cities was ten miles an hour.

In 1900, the tallest structure in the world was the Eiffel Tower.

In 1900, the average wage in the US was twenty-two cents an hour, the average US worker made \$200 to \$400 per year.

In 1900, more than ninety-five percent of births took place in the home.

In 1900, more than ninety percent of all US physicians had no college education.

In 1900, Canada passed a law prohibiting poor people from entering the country as travelers or as immigrants.

In 1900, most women washed their hair only once a month and used borax or egg yolks for shampoo.

In 1900, plutonium, insulin and antibiotics hadn't been discovered yet. Scotch tape, crossword puzzles, canned beer and iced tea hadn't been invented.

In 1900, one in ten US adults couldn't read or write and only six percent had graduated from high school. In 1900, some medical authorities warned that professional seamstresses were apt to become sexually aroused by the steady rhythm, hour after hour, of the sewing machine's foot pedals. They recommended slipping bromide, which was thought to diminish sexual desire, into the women's drinking water.

In 1900, the American flag had 45 stars. Arizona, Oklahoma, New Mexico, Hawaii and Alaska had not been admitted to the Union yet. *The Putnam County, FL, Genealogical Society Newsletter*

1881 KANKAKEE COUNTY DEATHS

Taken from the Kankakee Gazette (publication date in parentheses).

(24 Nov 1881) Momence & Grant Park: Concerning Royal Cutler, who died in Yellowhead on the 13th, the Reporter says: Mr. Cutler was one of the staunch and true men that go to make up the honor and glory of any country. He was enterprising, industrious, rigidly upright, and on the great questions that have agitated this country for the last twenty or thirty years his heart was as true to the Declaration of Independence, freedom and equal rights, as the needle to the pole. It was because the north is full of just such men, though younger, that the infamous slave holders' rebellion was crushed and freedom and justice assured to all in this country.

(24 Nov 1881) In Ganeer, Oct. 29, Campbell, son of Mr. and Mrs. Robert Gibson, aged 11 years and 10 months.

(24 Nov 1881) In Momence, Oct. 28, of typhoid fever Jane, daughter of Mr. and Mrs. Robert Goodell, aged 22 years.

(24 Nov 1881) In Momence, Emery Albert, only son of Mr. and Mrs. Robert Gibeault, aged 22 months.

(24 Nov 1881) In Yellowhead, Nov. 13, 1881, Royal Cutler, aged 77 years.

(24 Nov 1881) In Momence, Nov. 4, Jacob J. Love, aged 45 years.

ESSEX -1881

Taken from the Kankakee Gazette, November 10, 1881 (Nov. 5).

Lively times are anticipated here, and Essex is bound to be a place of some note, owing to its good location among the best coal fields in the State. A visitor to Edinburg tells us they have reached coal at the new shaft and surveyors are on the ground for the new switch. The lumber is mostly hauled and from 40 to 60 houses will be put up as soon as carpenters can be procured. Jas. Cummings who was badly hurt by falling 40 feet in the shaft is recovering slowly.

Viola Austin will teach in district No. 6 commencing next Monday. We are glad to learn that Mrs. W. W. White is improving under the skillful treatment of a Chicago doctor.

Miss Nellie Scroggins has gone to Kansas, hoping that a change will benefit her health.

Taken from the Kankakee Gazette, November 10, 1881.

We were very much pleased to see our friend H. C. Konklin in town the other day. He was one of the oldest settlers of Essex township and has always been a man of considerable influence. He held the office of justice of the peace for quite a number of years. He was also interested in the coal business here, opening up on his farm what is known as the Konklin coal shaft.

Geo. Scroggins left last Thursday for Valparaiso where he is going to attend school for a term of five months. George is but seventeen years of age, though he possesses a very manly appearance. His intentions are to make a man of himself and we wish him success. Miss Carrie Swift and Miss Lida Smith have returned from Valparaiso where they have been attending school.

Taken from the Kankakee Gazette, November 17, 1881.

Considerable sickness prevails in the community at present. Three of William Unz's family are down with typhoid fever; two of them are quite sick. Others in the community are having a chill fever. A Catholic church is to be built in Essex as soon as men and money can do it. The lot was decided upon last Tuesday, which was donated by Mrs. Lacey. The building is to be 40 x 60 in size. I have not learned the height.

Thos. King is building a good substantial barn. size 32 x 44 feet.

The school house in district No. 9 has had a general overhauling both inside and out, and it now presents quite a respectable appearance.

The following is a list of teachers employed in our town for this winter, with their respective wages per month: District No. 2, Samuel McLane, \$40; No. 4, Lewis Baxter, \$40; No. 5, Alida Smith, \$30; No. 6, Viola Huston, \$30; No. 7, _____ Cunningham, \$40; No. 8, Anna Joyce, \$28; No. 9, Carrie Swift, \$35. Nos. 1 and 3 have not been heard from. The length of terms range from three and one half to four months.

Taken from the Kankakee Gazette, November 24, 1881.

Herbert Emory took unto himself a wife, by the name of Pauline Touvell, whose former abode was Braidwood. Byron Underwood has built an addition to his barn. Miss Maggie Curran is employed to instruct the young idea this winter in district No. 1.

NORTON - 1881

Taken from the Kankakee Gazette, November 3, 1881.

Buckingham has a high school. Miss Van Dusen, an experienced teacher from New York, has charge.

Theo. Schoby has been to the swamps, and there are not as many ducks as there were. **Taken from the Kankakee Gazette, November 10, 1881.**

Luther Redfield has sold his farm in the south part of town to George McNamee. George has the cage now. How about the bird?

Yesterday the foundation stones were being hauled for the new church in Kempton.

Mrs. J. E. Farley, who has been dangerously ill is improving, although she is yet very sick. Charles Hall and J. L. Brown each lost a horse by death within the week.

Mr. James Neer and Dr. Bateman with their families depart for their new homes in Dakota this week. They are old residents of this town and a host of friends will regret their loss. They have the heartfelt wishes of all that they may prosper in their new undertakings.

ST. ANNE -1881

Taken from the Kankakee Gazette, November 3, 1881.

T. Corriveau is putting up a new house. M. E. Payson's house is done and is a fine cottage. L.

H. Perry is president of the St. Anne Sunday Schools.

Willie McGee took the train last Tuesday for Valparaiso where he will go to school for two or three terms. Belle Lowe is going to school at Valparaiso in about two weeks.

Taken from the Kankakee Gazette, November 17, 1881.

P. Laplant and Mr. Langellier are gone to Kansas to live. Laplant may go to California.

WALDRON - 1881

Taken from the Kankakee Gazette, November 10, 1881.

J. W. Sherwood, superintendent of the C., I., St. L. & C., and party were up fishing last week.

Johnson Hix, while at work at the paper mill, had one of his hands caught in a friction wheel and mashed his fingers pretty badly.

The new railroad bridge is progressing very well considering the condition of the weather, one span is nearly done and another is commenced. Butter and eggs are scarce and high.

The white mules at the paper mill ran away at noon today and hurt their driver Peter Grant, but not seriously. Miss Nettie Wright in in town visiting at H. P. Lowe's.

LOCAL JOTTINGS 1881

Taken from the Kankakee Gazette, November 10, 1881.

The telegraph office will be removed this week to the corner room over Swanell's store, where patrons can find better accommodations than in the present contracted limits.

Davis, the coal man, evinces the prosperity of his business by putting on the road a new coal delivery wagon, "No. 2", handsomely painted and constructed after a pattern specially adapted to the service required.

J. D. Decker was burned out at Wellington, Kansas, last week Thursday. His loss is stated by the local paper to be \$1200. with an insurance of \$500. Before the fire was half over he had another room rented and is doubtless by this time in business again.

paper mill, and the latter being taken from a pier of the wagon mill where he was clinging with a desperate grip by a boat manned by E. C. Holmes and some oil mill men.

The flat boat passed the dam without losing a single article from it, and had the men remained upon it they would not have had so much as their feet wet. They seemed perfectly frantic with terror and sprang into the water without a moment's consideration.

Behnke leaves a wife and five little children residing on the South side in a penniless condition and with no friends to aid them except the neighbors who have been very kind to them since the accident. Kohner was just over from Luxembourg, 25 years of age and single. An inquest will be held as soon as the bodies are recovered

EAST OTTO - 1881

Taken from the Kankakee Gazette, November 3, 1881.

Mary McCuen has been very sick with the typhoid fever for about three weeks. She is but little better now, but still they think that she may recover. There are a good many cases of typhoid in this vicinity. One doctor said the other day that he had twelve cases.

Mrs. Ott. of Kansas, has been visiting at Mr. McCuen's for the last two weeks. She came from Ottawa county and says the corn crop is rather short.

Julia Havens will teach the Dodson school this winter. We have a boy who has beaten the Buckingham man. Samuel McCuen killed eight ducks in one half day, near home. Mrs. Lydia Stockpool will go to Chicago to live this winter.

Mrs. Anna Enos will move to Evanston soon so that her boys can attend school. Scott Smith is home from his visit to Michigan, where he has been for the last month. He will start for Valparaiso in about a week to attend school during the winter.

Joseph Vallencourt sold a horse the other day for \$135.

ROCKVILLE - 1881

Taken from the Kankakee Gazette, November 3, 1881.

Mr. David Redman has returned after a protracted visit to his sons near St. Joseph, MO. Geo. and Lon. Gordon recently paid their sister, Mrs. Manie Redman, of Missouri, a short visit, with a view to moving thither if suited with the country, but they were not suited so you need not tell the boys goodbye yet awhile.

Benj. Goodwin has gone to "York State" for a two weeks visit, he is expected home tomorrow. Mrs. O. Lancaster is again able to walk. If cold weather does not come, harvest will soon be here.

Walls Shreffler has abandoned his former idea of going to Kansas, but Calvin, his eldest brother, will move thither before a great while.

H. B. Durham was recently appointed to the office of town clerk to fill the vacancy caused by the former clerk's moving to Kankakee. We repose full confidence in Mr. Durham, integrity and ability to serve the people acceptably.

MANTENO - 1881

Taken from the Kankakee Gazette, November 3, 1881.

Al Blessing is quite sick, although now in a fair way to speedy recovery.

Hamline Smith and Dan Lee are both very happy. It is a boy in each case.

Taken from the Kankakee Gazette, November 10, 1881.

Sam Williams is in town again after a year's residence in the West. A long and serious illness during the past summer has reduced him very much.

Mr. and Mrs. Ephraim Wright have gone on a short visit to relatives and friends in Canada. The Rev. Mr. Nate and family have been seriously delayed in moving by the condition of the roads. The family did not arrive until Saturday evening of last week.

Our enterprising young friend Charles Holmes is making arrangements to conduct the dairy business on an extensive scale during the coming year. He has rented of Dr. G. C. Merrick two farms, the one now occupied by the Doctor of about two hundred and seventy acres, and the one a mile and a half west of town of sixty acres. The doctor has expended a large amount of money and time in the last three or four years making the home farm one of the very best in this section of the country for dairy purposes, and the acquisition of this farm is a compliment to Charley's industry and executive ability as a farmer and dairyman. and we predict for him abundant success.

Mr. Milo P. Peters is very busy fulfilling bridge contracts in different parts of this and Sumner township. He has five on hand at present. and does not allow himself to be baffled by the condition of the roads or weather.

Mr. P. H. Seager went to Le Mars, Iowa. with the excursion of two weeks ago, and purchased a farm. We understand it is his intention to remove there in the spring. His loss to this community will be very generally regretted by his friends.

Taken from the Kankakee Gazette, November 17, 1881.

Brosseau & Son moved into their new store building last week. They now have most pleasant rooms and can better accommodate their large business. Merrick & Ellingwood also moved last week into the corner room vacated by Brosseau & Son. The room has been repainted and refitted and will accommodate their drug business nicely.

The friends of Miss Ada Alia will regret to learn that she is very low from that fell destroyer, consumption. She has been sick for more than a year but has failed rapidly within the past month.

PILOT - 1881

Taken from the Kankakee Gazette, November 10 1881.

George Wilcox and lady attended Rev. M. C. Wilcox's wedding in Chicago last week. Mr. W has many friends here who wish him and his bride long life and happiness.

Frederick Herscher returned from Germany last Tuesday. Some of Emperor William's subjects came with him.

The Norwegian Lutheran church, under Rev. A. C. Oleson, are erecting a house of worship on the corner near S. L. Eastwoods. They intend having services in it next Sunday I understand.

The following were installed on Thursday night last as officers of Orent Lodge for three months by Bro. John B. Blair, D.G.W.C.T.; G. A. Hubbard. W.C.T.; Sister Hattie A. Hubbard, W.V.T.; Isaac D. Ayres, W. Secy; Sister Amy Trescott, W.F.S.; C. H. Atkins, W.T.; Huntington James, W.M.; Robert Inkster, W.I.G.; Allen Martin, W.O.G.; A. S. Oleson, W. Chap.; G. A. Anderson, W.M.; Sister Albertina Ayres, R.H.S.; Sister Euphemia Inkster, L.H.S.; W. W. Blair, P.W.C.T. This lodge now has sixty-seven members.

ST. JOSEPH'S SOCIETY

Taken from the Kankakee Gazette, November 10, 1881.

The above-named benevolent organization, connected with St. Rose's (R.C.) Church in this place, have elected the following officers for the ensuing year:

Joseph Gelino, president; R. Lavery, vice-president; Joseph St. Louis, secretary, Ed Lasnier, assistant secretary; Joseph Cruise, treasurer; L. Drolet, assistant treasurer; L. Morin, O. Lucier, Z. Francoeur, visiting committee; Dr. Fraser, physician.

During the two years of the society's existence \$134.35 has been expended in relief work, and there is now in the treasury the handsome balance of \$237.50. The society now numbers eighty members, and new ones are joining from time to time. A fee of two dollars is required from persons uniting, and there are monthly dues of twenty-five cents per member.

LIMESTONE - 1881

Taken from the Kankakee Gazette, November 24, 1881.

Fannie, the seven-year old daughter of Charles E. and Mary Eggleston, has been very sick with rheumatic fever. Dr. Knott has been attending her. I understand that she is improving now but will not be able to walk for some time.

John M. Stokes begins school in district No. 8 today. Mr. and Mrs. John Henkle will soon start for Iowa where Mr. H's father and Mrs. H's daughter live.

The society was offered the opportunity for a fundraiser by the local Carson Pirie Scott store. Saturday, November 18, 2000, is Community Day where non-profit organizations are given savings tickets they can sell for this special sale day. Cost of the tickets is \$5.00 and the great news is that the not-profit organization gets to keep the entire amount! Therefore, we've decided that the money raised will be designated for a Building Fund. I want to extend a big thank you to member Kathy Knight who was the first to send in a check to start the Building Fund. Thanks also to the members who took a supply of these tickets to sell. We still have a supply of these tickets and we'd love to sell them all!

As most of our members know, our collection is housed at the Bourbonnais Public Library. We are at a point where there isn't much space left for us to expand. We've been following all the news items this past year when there was discussion of expanding the library. Also, a new librarian was hired this past spring who had hinted at the possibility of the society getting its own room if there was an expansion. Just to keep everyone up to date, there has been much controversy in the local newspapers over the past several months between the librarian, board and OUTRAGE group. The end result was that the librarian was asked to resign. So we don't know what's going to happen at the library, but will try to keep you posted.

Harlan and Pauline Murphy asked your editor to pass along the following: "We truly enjoyed celebrating our 50th 'Golden' Wedding Anniversary with KVGs members. Thank you for the flowers, banner and your lovely cards.

A special thank-you needs to be extended to the members of the society who came to our October Cemetery Walk. Despite the fact it was the first Saturday in October, the temperature was in the low 40's. It was the first time I can remember when gloves were a necessity! Thanks to Nelda Ravens, Thelma Lunsford, Chuck Wilcox, Lee Hollenbeck, Alicia Parkinson, Ardis Boone, Rose Hedger, Lucille Marcotte and Marie Charbonneau.

If you are a member who changes addresses during the year, please note that Bulk Mail is not forwarded. Therefore, you will need to contact the society and request that we hold your quarterly during any time period when it would otherwise be forwarded.

Don't forget to fill out the membership renewal form at the back of the quarterly. Also, it's time again for election of officers and appointment of committee members. If you'd like to be on a committee, chair a committee or hold an office, please let one of the members of the board know!

necticut with her uncle, Mr. Guilbert, who for a few years was a resident of Bourbonnais, while serving as receiver of the land office at Danville. Of this marriage there were eight children: Hattie, the oldest married Alfred Perry, and left two sons, now orphans, of whom Frank is pastor of a Catholic church in Chicago, and Edward, of the same town, is a bookkeeper for J. V. Farwell & Company in Chicago; Julian and Edward died unmarried; William died in infancy; Harriet, George and Alfred died unmarried; and Carrie, widow of Dr. P. L. Monast, had two sons and two daughters, Lucy, the deceased wife of George A. Letourneau, son of George R. Letourneau, had a son who married Miss Albia Roy but had no children.

While the names of the earliest settlers of Bourbonnais have been duly recorded in this work, a few instances connected with some of the more important may serve to more permanently connect them with township affairs. Thomas Durham and his family and John H. Worrell settled here in 1835, and the site of the village of Bradley comprises a part of both of their farms. Mr. Durham brought with him from the east a thorough knowledge of brick masonry, and among other undertakings, helped to build the Noel Le Vasseur house. Thomas R. VanMeter, a settler of 1839, purchased nine hundred and sixty acres of land, a portion of which he laid out in town lots of Kankakee, the same now comprising the largest part of the town. His two brothers, Daniel T. and James, came about the same time, Daniel locating north of his brother: and James settling on Section 12, Township 31, Range 11. About this time came William Ranty, who settled on Section 13, a part of the Levia reservation, and the same year John Flagole, a blacksmith by trade, settled near Mr. Le Vasseur. A resident of about this time was Antoine Marcotte, who had six sons; Antoine, Eloie, John B., Narcisse, Louis and Frank, and who was located on Section 20, opposite what is now the village of Bradley; David St. Pierre, Cloi Boisvert, the latter the father of Josent) L. Boisvert, late circuit clerk, settled on Section 21. Eloi Bergeron, who settled near Mr. Le Vasseur in 1837, was the father of Antoine Bergeron, who has been a resident of Bourbonnais for a longer period than any other of its citizens. In 1838 David Perry and Philip Worcester built a sawmill at what now

is the old dam, a departure which proved of incalculable benefit to the settlers, and encouraged building to a very considerable extent. Previously not a board could be secured this side of Chicago. The same year a log school house and a Catholic log chapel were erected, and before this services had been held in the house of Mr. Le Vasseur. Mrs. Le Vasseur, though a staunch Episcopalian, reared her children in the Catholic faith. She was an excellent mother, a devout Christian, and very charitable and kind.

Bourbonnais derived its greatest influx of emigration during 1847-48. Well remembered is David Granger, in whose personal life, as well as in that of his son, Ambroise, and the latter's children, was a high moral and religious element. His sons, Ambroise and William, are pastor and assistant pastor, respectively, of the church of St. Rose, of Kankakee; Alexis L. and Joseph I. are attorneys at law, and George and Harry, are engaged in the grocery business in Kankakee. Mr. Granger also had one daughter, who became a Sister of Charity at Mercy Hospital, Chicago, and died there about a year ago. George R. Letourneau came here in 1847, engaged as a clerk in a small general store, and finally went overland to California with Mitchell Lavalle, a nephew of Noel Le Vasseur, returning to Bourbonnais in 1852. Later he married and bought of Jacob Russell his old farm-house and three acres of land, Mr. Russell being an uncle of Mrs. Le Vasseur, and at that time receiver of the port of Chicago. Mr. Letourneau arose from this small beginning to the possession of a farm of two hundred acres, which he disposed of to Oliver Fraser in 1887. The general utility men began to add to the town's possibilities about this time, and prominent among them were Joseph Lesage, a general blacksmith, and Levi and Alexis Bassette, practical wagon makers. Edward and Antoine Langlois located on the prairie near the town, as did also Antoine Brosseau, father of Peter, Noel and Jeremiah Brosseau, and many other heads of families. Captain Francis S. Seguin located in the village in 1851, and proved an agreeable and useful acquisition to both town and county. He was a jolly and large-hearted man, always looking on the bright side of things, and naturally arriving at wise and prac-

tical conclusions. He was a fluent and convincing talker, and with Mr. Letourneau and Mr. Le Vasseur did much to effect the organization of Kankakee county. At the organization of the republican party the three friends turned the tide of the county to the republican side, and Mr. Seguin served as the third sheriff of the county. When the war of the Rebellion broke out he helped to raise Company D, Seventy-sixth Illinois Volunteer Infantry, in which three of his sons enlisted, and of which he was erected the first captain. After two years of service, failing health necessitated his retirement from martial affairs, and C. O. Savoie, who had been first lieutenant, was advanced to the captaincy, and Noel Le Vasseur to first lieutenant. Captain Seguin was a member of the building committee when the present county court house was erected, and this, and many other responsibilities of a public nature, he discharged with great credit to himself and the community. He was public spirited in the extreme, generous in contributing to and promoting worthy charities, and he set at all times a high ideal of broad minded and cheerful citizenship.

The Illinois, Indiana & Iowa railroad crosses Bourbonnais township through Sections 25, 26, and 27, its only station being located at the town of Bradley. The Illinois Central railroad crosses the township nearly in its middle, passing through particularly rich and fertile country, it having been built during 1852-53. The village of Tucker is located on this line, embracing in its municipal equipment a general store, grain elevator and black-smith shop.

ALTORF.

A small village seven miles down the river from Bourbonnais, has a reminder of past prosperity. In the quiet old flour mill built by Hiram Goodwin many years ago, and which still dominates the landscape on the old Shawansee reserve. Mr. Goodwin built also a dam across the Kankakee and manufactured flour for a time, or until the ice carried away the dam, leaving the mill to silence and perpetual idleness.

VILLAGE OF BOURBONNAIS.

Its position as a center of education is a destiny probably never prophesied for it by the

earliest settlers of the village of Bourbonnais, the oldest community in Kankakee county. Away from railroads, and therefore offering no incentive to manufacturing or commerce, its quiet atmosphere seems eminently fitted to the promulgation of knowledge, and the equipment of the youth of the county for their future as home or fortune makers. The streets are of fine gravel, shaded by friendly trees, and lined with comfortable or substantial residences according to the needs or tastes of its refined and peace-loving residents. Two of its finest residences are owned by the Legris brothers, and the parsonage commands attention because of its appropriateness and utility. The Academy of Notre Dame and St. Viateur's college are located in extensive and beautifully kept grounds and both institutions are undergoing alteration and enlargement to meet the demands created by the excellent opportunities which they present. The village has one store and one hotel and is lighted by electricity provided by the North Kankakee Electric Light and Street Railroad company, the trains of which arrive here from Kankakee every half hour by way of Bradley.

It was in Bourbonnais that the first church building was erected in Kankakee county. It was rude and built of logs, but served as shelter for zealous Christians who came long distances to worship, and it was replaced in 1853 by a frame structure, which, however, was burned to the ground soon after the first service held within its walls. While it was yet burning nearly enough money was raised by subscription to erect another building, and the result was the present stone church, which, while modest and unpretentious, is strong and substantial, and built of the finest Kankakee river stone.

Much interest attaches to the founding of the schools which contribute to the renown of Bourbonnais. First of all was the early subscription school, held in a log structure, which, however, soon outlived its usefulness because of insufficient capacity. At a meeting of the settlers of district No. 2, now district No. 53, it was decided to begin the erection of a stone building, two stories high, the upper story for the boys, and the lower story for the girls. In 1855 the building was finished and ready for occupancy, and its every stone was a memorial to

the self sacrificing spirit of some one of the men who desired the well being of the community. The money came partly from taxes, but mostly from private subscription, and when completed was well adapted to the needs for which it was intended. This building eventually was purchased by the St. Viateur's society, for their original college, and the present public school building of Bourbonnais was erected, with accommodations for seventy girl pupils, and ninety boy pupils, each department having two teachers. A high standard of education prevails, and those of the scholars who never pursue further studies, are assured of a practical, useful and all around desirable fund of information.

For the foundation of the Notre Dame academy credit is due Rev. Father Mailloux and Father J. N. Gingras, and to Sisters Alexis and Marcilinne. The sisters were invited to come from the mother country by Father Mailloux, pastor of the parish of Bourbonnais, with the understanding that after they had taught in the district schools for a number of years, the money would be forthcoming for the establishment of a Notre Dame academy, which would be more in accord with their mission and methods. The promises made the sisters were all lived up to, and after the exercise of strict economy, together with the generous assistance of a supporting public, it was possible to commence the erection of the present academy, now the pride of the town and county. This academy, upon which \$75,000 already has been spent, has a daily attendance of one hundred and sixty pupils, the majority of whom board in the institution.

The promise of encouragement and support, and of means with which to establish a college, was one of the prime inducements which brought to Bourbonnais the pioneer teachers of the Society of St. Viateur. The village then was very small and unpromising. Rev. Father James Cote, pastor of the church at Bourbonnais, relinquished his charge to Rev. Father Peter Beaudoin, who came from the headquarters of the society in Canada, with two assistants, Friar Augustin Martelle and Friar J. B. Bernard, to teach in the public schools. At the end of ten years the society purchased from the town the stone school building before mentioned, and therein established the college which since has been housed in a building sub-

stantial and pretentious in the extreme, and which, when its present addition is completed, will have cost the sum of \$262,000. At the present time the faculty consists of thirty-three professors, and the pupils number three hundred, all of them boarders in the institution. Father Beaudoin, a man of great culture, fine mind, splendid energy and marked executive ability, spent forty years of his life in perfecting a college which should fill the requirements of fitting men for positions of moral and mental responsibility. From its doors have gone forth hundreds of young men, whose earnest purpose and high ideals have later been reflected in careers in the professions of law and medicine, in the pulpit, and in industrial and commercial walks of life. Rev. Father Marsile, who succeeded Father Roy as president of the college, is a man of fine executive ability, and pronounced qualities of influence and popularity.

Much of the success of these two institutions is due to the generosity and support of men who, at the time of their establishment, were residents of Bourbonnais village and township. Among these should be mentioned the name of Noel le Vasseur, who practically donated the sites; of Messrs. Joseph and **Oliver Rivard, deceased**; Alexis Caron, deceased; David Granger, Sr., deceased; Joseph Lesage, Joseph Legris, deceased; George R. Letourneau, and **Eli Boisvert**, all of whom were unstinted in their generosity, and unfailing in their moral and general support. Antoine Bergeron, the Marcottes, the Savoies, Captain Francis Seguin, deceased, and Luc Bisette, now of Minneapolis, Minnesota, all did nobly their part, and helped to make possible the great and influential institution. All of the Legris family were educated in the college of St. Viateur, and they, and their mother, Mrs. Cleopha Legris, still are doing much to promote its well being.

VILLAGE OF BRADLEY.

The town of Bradley, located in Bourbonnais township, is one of the most prosperous and promising in the state of Illinois. Formerly known as North Kankakee, it was re-christened in 1895, taking the name of the president of the David Bradley Manufacturing company, who was the pioneer iron manufacturer of the central west. Mr. Bradley settled in Chicago in 1835,

and had the honor of shipping to that town the first car-load of pig iron. The enterprise in Bradley which bears his name is one of the best conducted and most prosperous manufactories of agricultural implements in this part of the country. One of its many advantages is a water works of its own, which has a storage capacity of sixty thousand gallons of water. Special supervision is maintained over its employees, which number from three to five hundred the year round, and for which a beautiful park and other comforts and advantages are liberally provided.

November 5, 1892, a meeting of citizens was called to organize the village of North Kankakee. The site of the village had previously been surveyed and platted, and upon its three hundred and twenty acres various manufacturing and other interests had been installed. Dr. P. Stebbins was chosen president of the village board, he having been born in Wilmington, New York, in 1833. Dr. Stebbins came west to Cook county in 1856, and has been a resident of Kankakee county for the past fifty years. The other members of the first town board were Joseph Levereau, E. Souligne, Anton Munich, Morton Magruder, and S. C. Schumacher. The village started under rather unfavorable conditions, and the financial stringency of 1893 paralyzed the several concerns which had located within its borders. However, no special discouragement seemed warranted, for the railroad facilities were excellent, water was abundant, labor troubles were conspicuous by their absence, and there was plenty of land to accommodate concerns of magnitude. The B. L. Gibbs chair factory, which had become submerged during the depression, took on a new lease of life as a starch factory, but soon after was the victim of a spontaneous combustion fire. The Haymond & Wertz Lumber & Coal company, which located here in 1892, when there was nothing but empty prairie, weathered the monetary storm, and still is an important adjunct to the business life of the town. There are few of the two thousand inhabitants who do not own their own homes. Within the past two years about five miles of cement walks have been laid, and a water tower one hundred and fourteen feet high has been built, and water mains laid through the streets. The drainage facilities are excellent, and the general sanitation is carried out with intelligent regard for the health and safety of

the community. By the end of the present year about \$45,000 will have been spent on public improvements, yet so well has this outlay been financed that no hardship is felt by the people who profit by them. Public officials are recruited from the labor element, and it has been demonstrated that such administrations are equal if not superior to a political or business regime. Electric cars traverse the town, connecting with Kankakee city, and the Chicago Interurban line. A modern and well equipped school building bespeaks the far-sightedness of its citizens, and its numerous churches indicate their moral and ethical standards.

What promises to become a great promoter agency is the stock enterprise of the T. F. B. Sotham company, which has purchased two hundred and one acres adjoining the tracks of the Illinois Central, Big Four, and Indiana, Illinois & Iowa railroads. The company has erected a concrete structure four hundred and fifty feet long and one hundred and fifty feet wide, with a capacity for feeding and housing three thousand full-grown cattle, and facilities for handling and shipping thirty thousand head of cattle annually. The situation is an admirable one, thirty trains running daily to Chicago, promising to the county as great preeminence as a stock center as Kansas City, or other great shipping points in close touch with the giant stock ranches of the west.

BURRELL MANUFACTURING COMPANY.

This plant was first established in its present location in 1892 and was known as the Lang Foundry & Machine shop. The business changed hands several times, and the present owners in 1902 purchased the property and business, and incorporated under the laws of the state of Illinois as the Burrell Manufacturing Company. The company abandoned the foundry and machine business and at once entered into the manufacture of grain elevator supplies, paint, mill machines, machines for mixing concrete and for making the popular hollow concrete blocks. From forty to fifty men are regularly employed at good wages. The business of this plant adds much to the prosperity of this community. The officers are: W. C. Burrell, president; F. D. Nelson, secretary; and R. W. Burrell, treasurer.

THE JOSEPH TURK MANUFACTURING COMPANY.

This firm came here in 1892, erecting their present substantial buildings and engaged in the manufacture of furniture until 1898 when the business was changed to the manufacture of metal bedsteads. This is the only plant in Bradley that has not changed ownership since its establishment. The company enjoys a large patronage, much of the time being unable to fill their orders. The output of the company is one hundred thousand bedsteads annually. They also have a very large foreign business.

The taxable property in the township for the year 1904 was:

Real and personal	\$661,728
Indiana, Illinois & Iowa R. R	119,935
Telegraph	1,000
Telephone	410
 Total	 \$783,073

The supervisors of the town have been: H. S. Hall, 1853; Francis Seguin, 1854; P. Makautz, 1857; G. R. Letourneau, 1858; William Cooper, 1859; G. H. Durham, 1860; Francis Seguin, 1862; P. Makautz, 1863; G. R. Letourneau, 1867; William Cooper, 1872; John Blackstone, 1875; G. R. Letourneau, 1876; J. H. Worrell, 1882 to 1889; Celestin Gravelin, 1891; Joseph Boisvert, 1901; John B. Flageole is the present supervisor.

GANEER TOWNSHIP.

The township of Ganeer was taken from the township of Momence, February 15, 1859, and consists of Township 31 North, Range 13 East, except Sections 31 and 32, and twelve sections in the northeast corner of Township 30 North, Range 12 West, containing in all thirty-eight sections of land.

The Kankakee river enters the town at the city of Momence, flowing in a southwesterly direction through the town, dividing it, and affording good drainage to the adjacent land.

There are five islands in the river, and all were originally timbered, as were portions of the river banks on both sides. The first island from the east is Beedle island, the second Perry island, and the remaining three are known as "Hobble Islands."

The town from the north is drained by Tower creek, which has two branches, having their origin in the town of Sumner. These branches unite about one and one-half miles from the north line, and empty into the Kankakee river opposite Beedle island, on Section 23. From its entrance at the northwest corner of the town, Exline creek takes a southerly course for about one mile, then crosses the line and goes west into the town of Bourbonnais, again entering Ganeer, on Section 19, flows west of the village of Exline and leaves the town on Section 30.

There is another creek from the north emptying into the river at the Farr place. From the south there is but one creek, which empties into the river after pursuing a meandering course through the lands of Isaac Hobbie.

The town is traversed by two railroads: The Chicago & Eastern Illinois, built in 1872, and the Indiana, Illinois & Iowa, built in 1881. The Chicago & Eastern Illinois enters the town on Section 25, on the eastern border, taking a southwesterly course and leaving on the south boundary on Section 14, Township 30 North, Range 12 West. This road has 24,737 feet of double main track. Ganeer voted and issued \$24,000 in bonds for the construction of this road.

The Indiana, Illinois & Iowa railroad passes through this town from east to west, entering on the east line in the northern part of the city of Momence, and deflecting to the south about one and one-half miles in its course across the township. The road was completed in 1881 and has a trackage of 32,921 feet. Ganeer issued \$7,500 in bonds towards its construction. Ex-line station, near the west line of the road, has a general store, post-office, blacksmith shop, grain elevator and Methodist church.

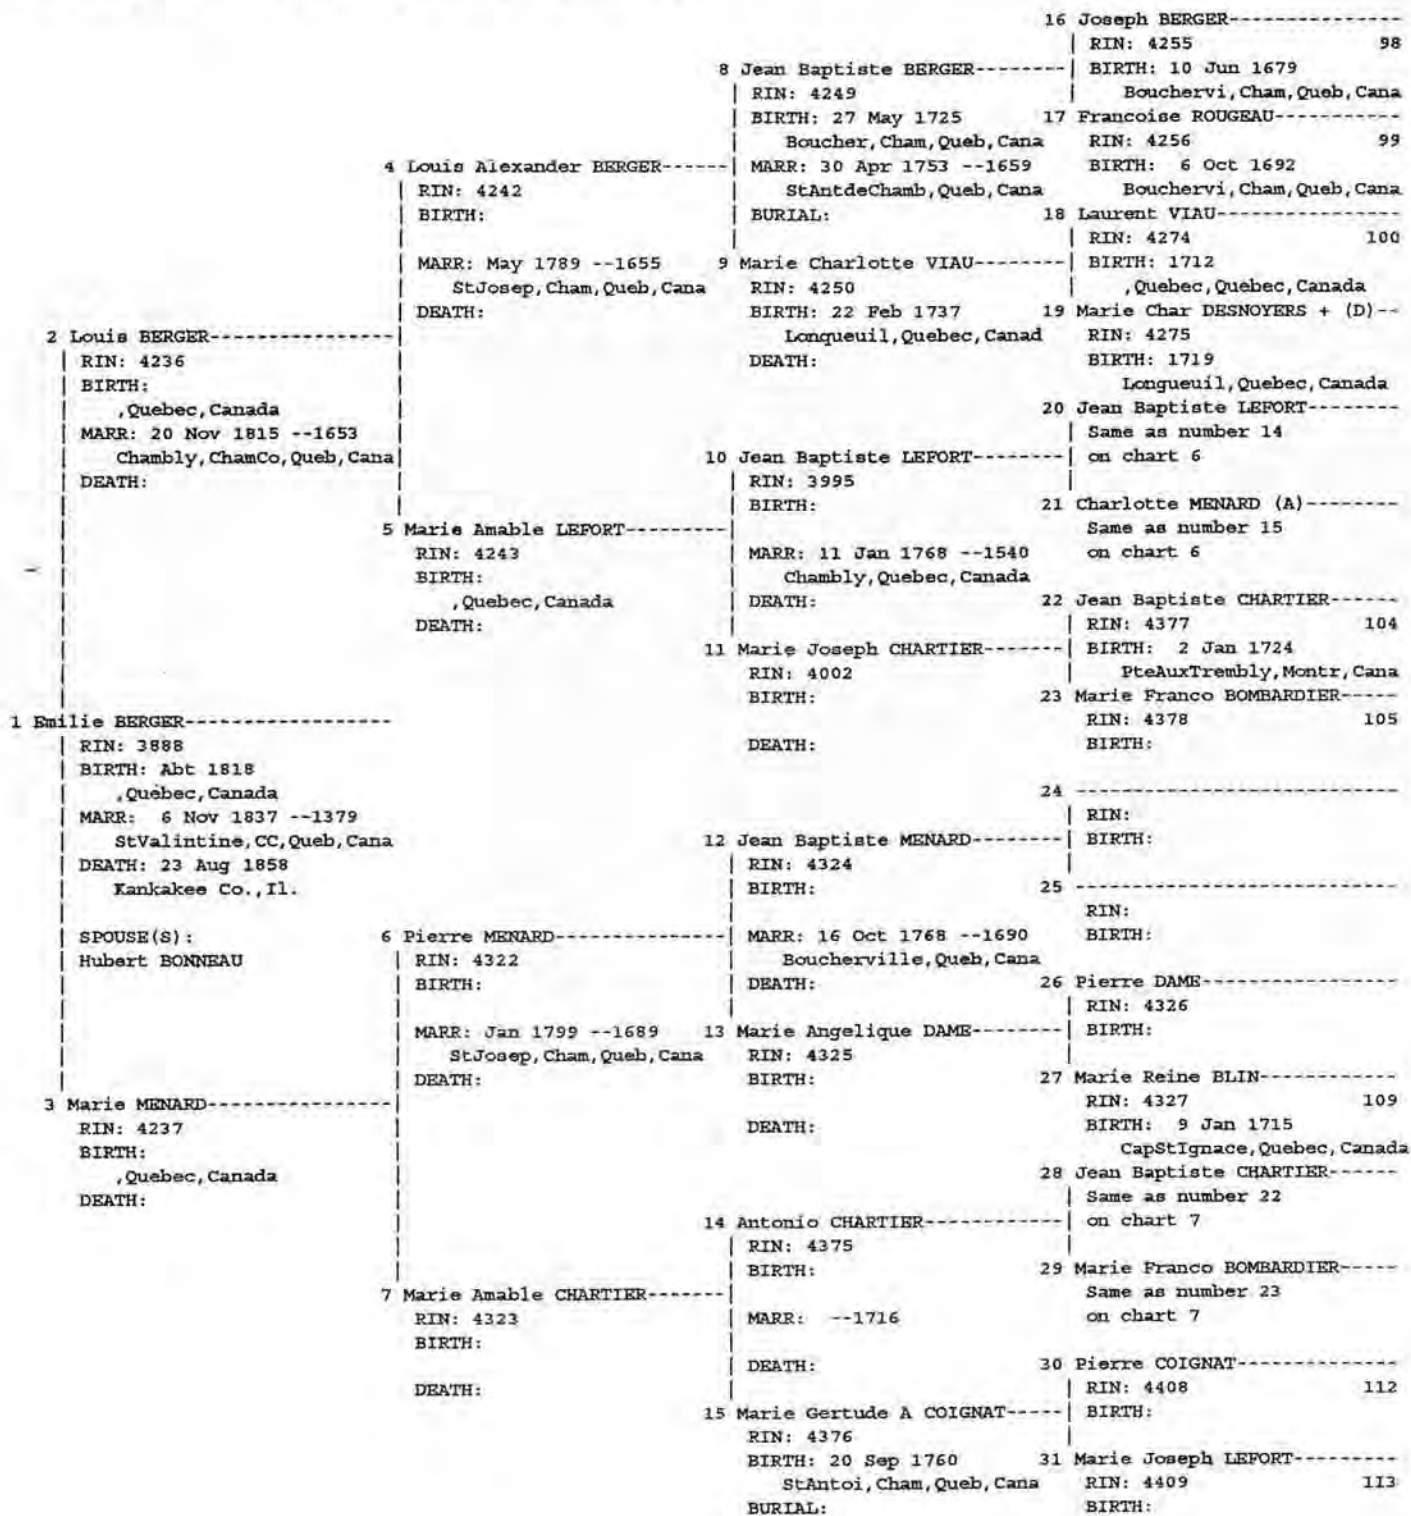

Although the site of the village was donated by M. D. L. Hunter, it is named from Exline creek on which it is located.

Exline is considered one of the best grain-shipping points in the county, the surrounding lands growing an excellent quality of grain. The depot for the city of Momence is on the east line of the town.

The Illinois, Iowa & Minnesota, a third railroad in course of construction, crosses the northeast corner of the town. The depot for this road will be on the Momence side of the city of Momence.

The west end of the island at Momence extends a few rods over the range line, the bridges
